ABOUT ME

I studied and finished Software Engineering at Celal Bayar University in Turkey. During my university education, I did internships as a Frontend Developer at Codezy Inc., a Canadian company. I had the opportunity to experience many software tools, especially ReactJs. These are GatsbyJs, LeafletJs, Tailwind, DigitalOcean, Docker, NextJs, NodeJs, MongoDB, Graphql, firebase. Apart from these tools, I have performed many data analysis and data scraping operations with Python, developed desktop applications. I have done paid jobs in python using many python libraries. I am currently looking for a job as a frontend developer.

WORK EXPERIENCE

01/07/2022 – 06/09/2022 Oakville, Canada
SOFTWARE ENGINEER INTERN - FRONTEND DEV. CODEZY INC.

I did this internship in Codezy, a Canadian company, in my 3rd year of university. During this internship, I worked more as a **Frontend Developer.** I created copies of many platforms such as Spotify and Instagram with Reactjs, nextjs, tailwind and many libraries. I took part in multiple projects and worked on many frontend projects with reactjs.

19/02/2024 – 27/05/2024 Oakville, Canada
FRONTEND DEV. CODEZY INC.

During my fourth year of university, I had the opportunity to work again at Codezy, where I had previously interned. This time, I was tasked with leading a project to develop an **"Editable Map System."** Using **React and LeafletJS,** I successfully created a map system that allows for modifications and enhancements. Throughout my tenure, I focused on improving the project and delivering a polished product ready for user deployment. Due to the confidential nature of the project, I can only provide this level of detail.
