ABOUT ME

Graduated from the Software Engineering at Manisa Celal Bayar University with a GPA of 2.87. During my studies, I completed two internships at Codezy, a Canada-based company, where I focused heavily on web development. These experiences, combined with my academic training, allowed me to deepen my expertise in building modern and dynamic web applications.

Beyond web development, I worked on various projects involving Python, including machine learning, natural language processing (NLP), data scraping, and data analysis. These projects honed my problem-solving skills and expanded my technical capabilities in diverse areas of software engineering.

WORK EXPERIENCE

01/07/2022 – 06/09/2022 Oakville, Canada
SOFTWARE ENGINEER INTERN - FRONTEND DEV. CODEZY INC.

During my internship at Codezy, I focused on building replicas of well-known platforms such as Spotify and Instagram using React.js, Next.js and Tailwind CSS. I contributed to multiple front-end projects, gaining hands-on experience in creating dynamic and responsive user interfaces.This role allowed me to enhance my technical skills and develop a deeper understanding of modern front-end technologies.

19/02/2024 – 27/05/2024 Oakville, Canada
FRONTEND DEV. INTERN CODEZY INC.

In my final year of university, I returned to Codezy to lead the development of an "Editable Map System." Using React and LeafletJS, I built an interactive mapping solution that allowed for custom modifications and enhancements. I focused on optimizing performance, improving usability, and delivering a polished, deployment-ready product.

EDUCATION AND TRAINING

SOFTWARE ENGINEERING Celal Bayar University
